## APPEAL TO LABOR GREAT ARMY LED MADE AT OPENING BY KERENSKY TO OF A. F. L. MEETING PUT DOWN REVOLT

Workers Will Suffer Most if  
Germany Wins War Dele-  
gates Are Told

**BUFFALO MAN DEPICTS  
HORRORS OF FAILURE**

Personal Disagreements  
Among Producers Are Un-  
American He Declares

(Associated Press Telegram)  
Buffalo, N. Y., Nov. 12.—With an  
appeal to all American working men  
to place their full and undivided  
force behind the fighting men at the  
front and a stirring picture of what  
labor may expect if Germany wins  
the war, President A. A. Landau of  
the Buffalo chamber of commerce,  
today welcomed the American Fed-  
eration of Labor at the opening of  
its convention here.

A former labor leader himself,  
who has seen first-hand in Europe  
how troops in the field gave their  
live and blood for naught when  
workers at home engaged in disputes  
instead of putting all their energy  
into keeping the fighting men sup-  
plied, Mr. Landau appealed to all  
labor to sink everything in a ter-  
rific effort to do its part to win  
the war.

"President Wilson," declared Mr.  
Landau, "has said we are fighting  
a war for democracy. We are not  
only fighting a war for democracy  
but a war for industrial freedom and  
self-protection, a war to conserve  
that which we now have."

"A victory for Germany would  
mean slavery for the American people  
for generations to come, and the  
people who work will be the greatest  
sufferers."

"I spent the summer of 1915 and  
1916 in France and Italy doing what  
I could in helping them in their ef-  
forts to increase the efficiency of  
their industries so that they could  
hold back the German army and  
possibly defeat them. In 1915, Eng-  
land was in a very sad way."

"I was in England when the  
Princess Patricia's Canadian Light  
Infantry was sent to France. You  
know they went in a full regiment of 2400  
men and came out with less than  
150 men and eight officers, and  
most of them wounded. I was talk-  
ing to a young Canadian officer  
from Montreal, who used to be a  
salesman, and therefore a worker in  
civil life, and he told me that they  
had run out of ammunition, that the  
artillery had run out of shells and  
that they had to crawl out on their  
bellies, leaving approximately 2300  
men behind—dead and missing.  
They even had to witness one of their  
officers crucified before their very  
eyes."

"And what was happening in Eng-  
land? A large shipment of munitions  
that I was assisting on was com-  
pleted and ready to ship and could  
have been used and should have  
been used in this very battle—  
upwards of 300,000 pieces of munitions  
entirely completed—with the  
exception of a small firing pin. I  
was told that they could not be de-  
livered in less than three weeks for  
the reason that the workmen were  
taking their usual summer holiday.  
Think of that! While their own  
brothers and sons and relatives were  
undergoing the hardships and tor-  
tures of hell and the very nation was  
in danger."

"And now we are in this war and  
this convention is going to give the  
answer, so far as you are concerned,  
to the American people, and to our  
allies, and last, but not least, to the  
emperor of Germany. And I want to  
say to you that so far as we have  
gone, the answer is on the side of  
Germany. We are still washing our  
dirty linen and we are still not in  
our own legislative bodies—national,  
state and municipal? And if there,  
I repeat: why not here; and if here,  
how are we going to know him?  
He won't tell us. We can only judge  
by his actions, and how he approaches  
this great problem of winning the war."

"It matters not what a man  
claims as a reason for justifying the  
retarding or holding back or our  
war activities. We must stand up  
results or any man or any body of  
men who assume to get in the way  
of results of winning this war for  
democracy, conservation, and hu-  
manity, is on the side of Germany  
regardless of what his method of rea-  
soning may be."

"Do you imagine that under Ger-  
man rule you could possibly have the  
rights you now have under a democ-  
racy? Ask any man who has come  
from Germany. Ask him why he  
leaves if he is honest. If we con-  
tinue to argue among ourselves as to  
the right and wrong of this principle  
and that principle and if we continue  
trying to satisfy our personal ambi-  
tions and our pocketbooks at the ex-  
pense of our national efficiency,  
what will we say when our boys re-

Premier's Friends Already  
Regain Control of Some  
Parts of Petrograd

**LENINE REVOLT RAPIDLY  
LOSING POWER IT GAINED**

Only Matter of Few Hours  
Until Former Provisional  
Government Returns

(Associated Press Telegram)  
Petrograd, Sunday, Nov. 11.—(De-  
layed)—Street fighting is proceed-  
ing constantly. Junkers loyal to the  
Kerensky government regained pos-  
session of the telephone station this  
morning. The exact whereabouts of  
the Kerensky army which is reported  
to be approaching the city is un-  
known at this hour. Fighting is in  
progress in the Grand Morskai be-  
tween Bolshevik infantrymen and  
junkers in armored cars.

(Associated Press Telegram)  
New York, Nov. 12.—Premier  
Kerensky at the head of 200,000  
loyal troops is marching on Petro-  
grad, where the Maximalists rapidly  
are losing power. The Bolshevik  
uprising in Moscow was abortive ap-  
parently and the loyal troops have  
driven the revolutionaries into the  
Kremlin.

General Korniloff, leader of the  
futile revolt of some weeks ago;  
General Kaledine, former headman  
of the Don Cossacks; Michael Rod-  
zianko, president of the duma and  
Prof. Milukoff, constitutional dem-  
ocrat leader, are reported to be form-  
ing a government in Moscow.

Probably such an organization  
would be more conservative than the  
Kerensky ministry and whether it is  
supporting Kerensky is not yet indi-  
cated.

The Bolshevik and the Kerensky  
forces have not yet engaged in ex-  
tensive fighting. Loyal troops have  
occupied Tsarskoe-Selo, fifteen miles  
south of Petrograd and Premier Ker-  
ensky and his troops are reported at  
Gatchina, about 30 miles south-  
west of the capital. Food sup-  
plies in Petrograd are reported low  
and the Cossacks there are backing  
the Maximalists in resisting the Bol-  
sheviki.

Apparently there have been no  
further defections to the Bolshevik  
from the army and garrisons and Pe-  
trograd and Moscow appear to have  
been the only large cities affected  
by the uprising of the followers of  
Lenine. Loyal troops control the  
chief wireless station, one report  
from which says that the overthrow  
of the revolt is "only a matter of  
days or hours." This is borne out in  
part by the lack of timely advices  
from the Bolshevik headquarters in  
Petrograd.

The radical element in Finland  
has seized the opportunity to at-  
tempt to set up a separate movement.  
Governor General Neittaanmaki has  
dismissed and his place taken by a  
sailor, and a state of war has been  
proclaimed. The Finnish diet has  
voted to give supreme power to the  
province to a state directorate.

Italian resistance is stiffening  
along the Piave line and in the Su-  
gana valley, the Austro-German pro-  
gress is slowing up. The invaders  
have not been able to cross the  
Piave. The Vidre bridgehead, on the  
eastern bank of the river was de-  
fended stubbornly by the Italians  
who finally retired across the river  
after blowing up the bridge.

Violent fighting is in progress  
around Asiago and the Setti Comu-  
niste to the west. Berlin reports  
some progress on the Setti Commu-  
niste in the Sugana valley but against  
strong Italian defense. East of Asi-  
ago, the Italians in a desperate  
charge were able to capture a posi-  
tion from the invaders and in the Sugana  
valley near the Austro-Italian border  
they captured an enemy advance  
guard.

The permanence of the Piave line  
depends mostly on the success or  
failure of the Austro-German blow  
in the Asiago region, military obser-  
vers think. If the invaders can be  
held in the north the Treviso hills  
along the middle of the Piave will  
be the Italians in checking an advance  
across the river. Further Austro-  
German advances from the north  
might make the Piave line untenable  
and Venice and Treviso probably  
would have to be given up to the  
enemy with a further retirement  
thence to the Brenta or the Adige.  
However, the Italians are fighting  
hard and the German progress Sat-  
urday and Sunday apparently was  
precisely slow. In France there has  
been little fighting activity of im-  
portance. The Germans have failed to  
counter attack in an attempt to re-  
gain the Passchendaele ridge the cap-  
ture of which has been completed by  
the British. In Palestine the British  
advance continues. More villages  
and additional prisoners have been  
lost by the Turks.

**TWO BURNED TO DEATH.**  
(Associated Press Telegram)  
Wilmington, O., Nov. 12.—Early  
Pond, 16, died last night and his  
mother Mrs. Alvin died early today  
as the result of burns received yester-  
day when the son attempted to  
light a fire in the kitchen stove at  
his home, using what he thought  
was coal oil but which proved to be  
gasoline.

## RADICAL LEADERS IN LATEST RUSSIAN OUTBREAK

Leon Trotsky (left) and Vladimir Lenin.

Nikolai Lenin is the leader of the extreme radical element in Russia that has overthrown the Kerensky government. His chief aim is believed to be an immediate cessation of hostilities and a termination of the war. Since the July outbreak Lenin had been in hiding and his arrest had been sought by Kerensky. Leon Trotsky, his associate and lieutenant, was the editor of an east side newspaper in New York city three months ago. He has been associated with the Russian revolutionary movement for years, had been exiled to Siberia, edited a paper in Germany, whence he was expelled at the outbreak of war. He came to America early in this year and upon his recent return to Petrograd he was allied with the Bolsheviks and the extreme radicals.

## Y. M. C. A. WORK IN WAR ZONE VALUABLE TO MEN IN ALLIED ARMIES; HELP RAISE LICKING CO. FUND

First information regarding the  
work of Y. M. C. A. secretaries in  
the war zone came again from  
Frank H. West, formerly general  
secretary of the Y. M. C. A. at the  
University of Wisconsin, and now  
with the American troops in France.  
In an interesting letter dated last  
July he writes in part:

## ASK ANTI-SALOON HEAD FOR EVIDENCE OF ELECTION FRAUD

Columbus, Nov. 12.—Attorney  
General Joseph McGhee announced  
today that he will ask James A.  
White, campaign manager for the  
Ohio Dry Federation for evidence of  
fraud which the dry leader claims to  
have in connection with the counting  
of the prohibition vote in Hamilton  
county and that this evidence will  
be placed before the Hamilton coun-  
ty grand jury next week.

Simeon M. Johnson, special coun-  
sel in the attorney general's office  
today notified Attorney General Mc-  
Ghee that he could find no evidence  
of fraud or misconduct on the part  
of the Hamilton county election  
board in connection with the elec-  
tion in that county. Mr. Johnson  
has been in Cincinnati since election  
day making an investigation of  
fraud charges.

"There was no fraud or misconduct  
in any way by the board of deputy  
state supervisors and inspectors of  
elections of this county," he wrote  
from Cincinnati. "There was no  
mistake made by said board in its  
official count. Its entire official  
action was fair and impartial and  
taken with scrupulous regard for  
the law."

Mr. Johnson's letter stated that  
the first error in tabulation, by  
which the wests were given 10,000  
additional votes was found by C. L.  
Swain, the representative of the dry  
force in Hamilton county and by  
O. J. Renner, a wet representative.  
The attorney general also was ad-  
vised that there was no fraud in  
precinct 1 of the 16th ward as was  
charged by the dries. "A statement  
has been made," said Mr. Johnson's  
letter, "that in precinct 1, 16th  
ward, of this city, more votes were  
cast on the prohibition amendment  
than there were voters actually reg-  
istered. The facts are as follows:

are something like 20,000 British  
and Canadian women giving their  
time to this work. In Y. M. C. A.  
huts in Britain and on the Continent.  
Many of these are among the titled  
ladies of Britain.

"Then there is a large auditorium  
with the stage about 30 feet from  
one end, facing the long way of the  
hut, i. e., with a room perhaps 80  
feet long and 40 feet wide in front.  
Behind are several smaller rooms  
for personal conferences, prayer  
meetings, after meetings, Bible  
group classes and educational class-  
es. But you ask, is there an inter-  
est in religious meetings, proper  
groups, etc.? Well, honestly, it  
would do anybody's soul good to see  
the interest in religion, i. e., the sort  
of wholesome, frank, honest-to-  
goodness religion which recognizes  
the place of Jesus Christ in a man's  
life, the possibility of obtaining  
power from God to fight and win  
one's battles, the necessity of per-  
don for sin, and the principle of  
eternal life."

## GOVERNOR PROCLAIMS Y. M. C. A. WAR FUND WEEK

(Associated Press Telegram)  
Columbus, Nov. 12.—Gov-  
ernor James M. Cox today is-  
sued a proclamation designating  
this week as "Y. M. C. A. War  
Fund Week" and urging the  
people of Ohio to contribute  
according to their means to the  
fund campaign. "It is a great  
success," Ohio's share in this  
campaign is \$2,750,000. Gov-  
ernor Cox's statement said:

## RETREAT OF TURKS HALTS AT HEBRON TURNING ON ENEMY

London, Nov. 12.—Turkish troops  
which have been retreating before  
the British advancing in southern  
Palestine, are organizing for de-  
fense in the vicinity of Hebron,  
about 20 miles southwest of Jeru-  
salem, says an official statement to-  
day. British mounted troops are  
continuing to push forward in some  
sectors.

## HAGERTY IS SOUGHT FOR MURDER OF PHYSICIAN

Cleveland, Nov. 12.—John F. Hag-  
erty, former Cleveland druggist, is  
the man police are seeking as the  
murderer of Dr. Harry L. Chapin  
who was stricken down and killed in  
a downtown hotel room last Thurs-  
day.

A warrant charging first degree  
murder was sworn out against Hag-  
erty this morning. The warrant  
was issued by Police Prosecutor Lind  
at the request of Chief of Detectives  
Habschaw.

ture verses with the same frankness  
we should discuss baseball or a min-  
strel show. In fact, the first night  
we were here at this base camp, we  
had an audience of over 900 men.  
We made no attempt to meet inside  
the tent when we saw the attend-  
ance, and with less than three hours  
to advertise the meeting. We had  
a band, introduced the various mem-  
bers of the force, announced a social  
program for the next night, asked  
for volunteer talent and got enough  
for three entertainments, announced  
educational classes, all kinds of ath-  
letic sports, and a series of religious  
meetings and Bible classes.

"Within 48 hours after we  
reached camp we had 200 men in  
one class learning some 'French  
phrases by the immigration method',  
150 men in Bible classes, led almost  
entirely by teachers picked from the  
ranks or from among the officers. I  
don't know how many games of ball,  
baseball, football, volley ball, etc.,  
and of course our one lone tent at  
the barracks is packed way beyond  
its capacity all the time with men  
writing letters, buying at the can-  
teen, and listening to our little one-  
ling graphophone."

## DRYS ARE ALREADY PREPARING TO WAGE HARDER FIGHT 1918

(Associated Press Telegram)  
Columbus, Nov. 12.—Ohio dry  
forces are already planning for their  
1918 campaign to add a prohibitory  
amendment to the state constitution,  
according to James A. White, state  
superintendent of the Ohio anti-  
saloon league. Re-submission of the  
same amendment, defeated last  
week, and which if passed in the  
1918 November election, would make  
the state dry February 1, 1919—ex-  
actly the same date as if Ohio voters  
had ratified it last Tuesday, is a part  
of the plan to be carried out.

Maintaining that had the dries  
been treated fairly, prohibition  
would have carried, Mr. White also  
announced that prosecution of all  
frauds in the counting of ballots  
would be one of the first actions  
taken. He pointed out that in all  
districts where mistakes were made  
in tabulations—Cuyahoga, Lucas and  
Hamilton counties—a large wet ma-  
jority was given.

Another step, Mr. White said, will  
be the securing of Ohio legislators  
who will ratify the federal prohibi-  
tion amendment, which may be passed  
by congress at the next session,  
and which, if endorsed by two-thirds  
of the states, would make the entire  
country dry.

**SHAY TRIAL OPENS.**  
(Associated Press Telegram)  
Indianapolis, Nov. 12.—The trial  
of Danny Shay, former manager of  
the Milwaukee American Association  
baseball club, charged with murder,  
was to begin in criminal court here  
today. The case was called several  
weeks ago but was continued because  
of illness of one of Shay's lawyers.

**PATROL BOAT ASHORE.**  
(Associated Press Telegram)  
Washington, Nov. 12.—The navy  
department announced today that a  
patrol boat had gone ashore in home  
waters, the name of the boat and its  
location being withheld. No one was  
injured, so far as reports received  
show and efforts to refloat the ves-  
sel were begun at once.

## PRESIDENT DENOUNCES PACIFISTS AND CRITICS IN HIS BUFFALO SPEECH

War Cannot Be Won Unless All Factions  
Unite in Common Cause He Tells Dele-  
gates to Annual Convention of  
the A. F. of L.

## PAYS TRIBUTE TO COMBERS AS HEAD OF AMERICAN LABOR ORGANIZATION

Declares Flatly That Germany Started War and is Willing  
to Await the Verdict of History to Confirm Statement  
—Present War is Last Decisive Issue Between Old  
Principles of Power and New Principle of Freedom—  
Austria Wants Peace Because She Fears Power of  
Germany After War—Amazed That People of Russia  
Believe Reforms Can Live in Presence of Germany  
Powerful Enough to Crush Them

(Associated Press Telegram)  
Auditorium, Buffalo, Nov. 12.—  
President Wilson made a personal  
and eloquent appeal here today for  
the full support of organized labor  
for the government in the conduct  
of the war. Speaking before the an-  
nual convention of the American  
Federation of Labor he declared the  
war could not be won unless all fac-  
tions unite in a common cause, sink-  
ing their differences.

The President paid warm tribute  
to Samuel Gompers, president of the  
federation and virtually called upon  
the federation to give him united  
support. He denounced pacifists and  
critics. He appealed for co-operation.

Discussing Germany the president  
declared flatly that Germany had  
started the war and that he was will-  
ing to await the verdict of history on  
that statement.

The creation of new instrumental-  
ities for better co-operation between  
labor and capital was one suggestion  
by the president which was of prime  
interest to the delegates to the con-  
vention.

The President alluded to the pres-  
ent war as "the last decisive issue  
between the old principles of power  
and the new principle of freedom."  
He said, "that the spirit  
of freedom can not live in the hearts  
of Germans and find a fine well-  
come there as it can find in any other  
hearts. But the spirit of freedom  
does not suit the plans of the pan-  
German. Power cannot be used  
with concentrated force against free  
peoples if it is used by free people."

"You know," he continued, "how  
many intimations come to us from  
one of the central powers that it is  
more anxious for peace than the  
chief central power, and you know  
that it means that the people in  
that central power know that if the  
war ends as it stands, they will in  
effect themselves be vassals of Ger-  
many, notwithstanding that their  
populations are compounded of all  
the people of that part of the world,  
and notwithstanding the fact that  
they do not wish in their pride and  
proper spirit of nationality to be ab-  
sorbed and dominated."

Referring in another part of his  
speech to Russia, the president said:  
"May I not say it is amazing to  
me that any group of people should  
be so ill-informed as to suppose, as  
some groups in Russia apparently  
suppose, that any reform planned in  
the interest of the people can live in  
the presence of a Germany powerful  
enough to undermine or overthrow  
them by intrigue or force. Any bod-  
y of free men that compound with the  
German government compounds for  
its own destruction."

Taking up the labor question in  
the United States, the president said:  
"If we are true friends of freedom  
we will see that power and produc-  
tivity of the country shall be kept  
at maximum. Nobody shall be al-  
lowed to stand in the way. The gov-  
ernment will not see them from do-  
ing this but the spirit of the Ameri-  
can people will."

"We must stand together night  
and day until the war is over," said  
the president, adding that "while we  
are fighting for freedom we must  
ensure the freedom of labor."

"Nobody has the right," said the  
president, "to stop the processes of  
labor until all methods of concilia-  
tion has been exhausted, and I do  
not speak to you alone, I have found  
labor in many instances more rea-  
sonable than the other side."

The president appealed for co-op-  
eration. He said that he "would  
like to see all the critics exported."  
He said "we must get down to busi-  
ness as an ever yone must do the right  
thing."

"Never show ourselves Americans  
by going off in separate groups to  
talk by ourselves, but by co-operat-  
ing in a common enterprise which is  
to release the spirit of the world  
from bondage," he declared.

The president denounced organiza-  
tions which he said are trying to  
destroy the law, but in every case,  
he said, they should be dealt justice.  
"I am opposed," he continued, "to  
our taking the law into our own  
hands, as much as I dislike the ac-  
tivities of these organizations."

"The man who takes the law into  
his own hands is not the man to co-  
operate in any development of laws  
and institutions," the president as-  
serted. "We must not only take  
common counsel but we must obey  
common counsel."

Instrumentalities must be devised  
where they do not exist, said the  
president.

The coming of President Wilson  
overshadowed the interest in all oth-  
ers of the program of the opening  
session of the convention. Already  
recognized as one of the most impor-  
tant conventions in the history of or-  
ganized labor in this country this  
feeling was intensified by the an-  
nouncement that the president was  
coming "to speak to labor and  
through labor."

The president's car was waiting  
from the regular train at a suburb  
early today and brought into Buffalo  
as a special train.

Drawn up at the Buffalo station  
was a regiment of troops from Fort  
Niagara, which escorted the presi-  
dent to the convention Auditorium.  
The arrival of the troops at the sta-  
tion soon attracted a huge throng to  
greet the chief executives who have  
not been here since his last presiden-  
tial campaign.

Next in importance to the pre-  
sident's address was the report of an  
executive council, the reports of the  
convention to be submitted today.  
Preliminary committee meetings had  
indicated that questions arising from  
the war would occupy a large part  
of the week's deliberations and so far  
as their proceedings were made pub-  
lic there was every indication that  
the policies of President Gompers  
and his associates on the council  
would be upheld by the rank and  
file of the federation.

## CLEVELAND GETS EARLY START ON Y WAR FUND

(Associated Press Telegram)  
Cleveland, Nov. 12.—More than  
seven-thirtieths of Cleveland's quota of  
the Y. M. C. A. war fund was raised  
up to noon today, the first day of  
the campaign. When the \$40 team  
workers reported at noon today,  
\$719,085 of the quota of \$1,000,000  
had been subscribed. Campaign  
managers expect a heavy over-sub-  
scription before the campaign ends  
next Saturday night.

**SAFE BLOWERS GET \$2,000.**  
(Associated Press Telegram)  
Canton, O., Nov. 12.—Burglars  
blew the safe and vault in the store  
of Garver Brothers, at Strasburg, 20  
miles south of here early this morn-  
ing an accused as booty \$2,000 in  
cash and a large quantity of jewel-  
ry and valuables. The night watch-  
man of the store was overpowered,  
bound and gagged. He reports there  
were three burglars.

**CLEVELAND SOLDIERS LIBERAL.**  
(Associated Press Telegram)  
Montgomery, Ala., Nov. 12.—  
Cleveland and Toledo soldiers, com-  
prising the 135th field artillery, won  
first place in the recent Liberty loan  
campaign at Camp Sheridan with  
total subscriptions of \$150,150.

**UPROLES OHIO COURTS.**  
(Associated Press Telegram)  
Washington, Nov. 12.—The su-  
preme court today declined to dis-  
turb Ohio court decisions finding Dr.  
Charles M. Simpson of Cleveland  
guilty of misbranding medicine man-  
ufactured by him. Simpson was  
fined \$200 by the lower courts.

**ROBERTS KILL MERCHANT.**

# A LETTER FROM THE MONASTERY OF THE DOMINICAN SISTERS IN DETROIT

## Give Grateful Praise To Father John's Medicine

### Say They "Find It Most Useful for Colds and a Wonderful Strength Builder."

"We have used Father John's Medicine for colds and coughs and we are certainly willing to advertise its value. The Medicine is most useful for colds, restoring lost strength; in a word a wonderful strength builder. Gratefully (Signed) Dominican Sisters, Oakland Ave., Detroit, Michigan.

This letter, recently received from the monastery of the Blessed Sacrament in Detroit is another evidence of the value of Father John's Medicine for colds and body-building. Father John's Medicine is in use and recommended by various institutions, homes and hospitals throughout the country. Its value has been proven by more than sixty

years of success. It is a doctor's prescription and is guaranteed free from dangerous drugs in any form. Because of the fact that it is safe for children as well as older people, Father John's Medicine is used in thousands of homes by careful mothers who have found from experience that it keeps the children well, relieves colds and coughs promptly and builds new strength.

# Famous Cigar Advances Price

## San Felice Cigar Now 6c

The high standard of quality of the San Felice cigar will be maintained. During the past year the increases in taxation, raw material and wages have been so great that it is impossible to continue to sell San Felice cigars at the old price.

It is necessary that we advance the price of San Felice cigars to 6c. To our many friends who smoke the San Felice cigar because of its high quality we ask a continuance of your patronage. San Felice cigars now 6c. The Deisel-Wemmer Co., Lima, Ohio.

# APPEAL TO LABOR MADE AT OPENING OF A. F. L. MEETING

(Continued from Page 1.)  
turn from France? How are we going to excuse our negligence to them when they return less, armless, and eyeless—if they return at all, knowing that the reason for it was that we failed to back our boys at the front. That the boy's very father refused for some reason or other to make his manhood shell to shoot, or another bayonet to defend himself, or refused to load a sufficient amount of food supplies on ships, so that he could be fed, or refuse to build ships so that the food and clothing, comfort, even medical supplies, might be carried to him across the sea. What are you going to tell them? How are we going to square ourselves with him and how are we going to square ourselves with our conscience?

"Personal disagreement here, or efforts to take advantage of this, or that war either by capital or labor is un-American, and if the men are not loyal to the nation they should at least be loyal to their own flesh and blood."  
"If Germany wins this war it will be because she has beaten us to our knees. If she beats us to our knees how do we know that Belgium will not be a sideshow compared to what Germany will do to America. And it will be no time then to say: 'I didn't know,' because we do know. It will be no time then to say that 'I wish I had done differently,' because it will be too late."  
"May we not hope that a national spirit may be reborn here. May we not hope that a message will come from this convention into the very teeth of the kaiser, saying to him: that this, a democracy, that is marching shoulder-to-shoulder in France, is the rich man and the poor man, everyone striving to the common end—honor and victory for democracy and self-preservation—and being sure that we have given to those sons of ours and those brothers of ours, who are in France, everything that could possibly be required so that they may do their work well; so that they may be a credit to American traditions; so that they may never be able to say: 'Why didn't you back me up? Oh! father, why did you stop when I was suffering and hungry? Why didn't you help me?'"

# ENGINE CARRIES CAR ON PILOT 100 FEET; DRIVER UNINJURED

Carl Suddeth, aged 20 years, of Hanover, had a narrow escape from death when his Ford touring car was struck by a freight engine at the Pennsylvania railroad crossing in West Newark last night. The guards at that crossing were shattered some time ago and the watchman has been working on the crossing, using a lantern. Suddeth saw the lantern, but thought it a street car lantern and kept on until he was on the track. The automobile was picked up by the pilot of the engine and carried down Morris street nearly 100 feet, when it fell to the side of the track. Suddeth was in the car and spectators believed him to have been killed. They are amazed to see him crawl from under the wreckage and walk away. He only suffered a slight scratch on the right leg but the machine was almost totally wrecked.

# ITALIANS READY TO MEET Foe ON NEW FRONT ON THE PIAVE

(ASSOCIATED PRESS TELEGRAM)  
Rome, Nov. 12.—The Italians have resisted the enemy who everywhere on the north front, along which the Austrians are attempting to outflank the Italian river line, the war office reports. On the plain there is brisk firing across the Piave river.

Berlin (via London), Nov. 12.—The Austro-German forces in northern Italy have cut off 10,000 retreating Italians in the upper Piave valley, the war office announces. The Italians are said to have surrendered.

The German statement says: "The Teutonic forces have advanced from Belluno down the river Piave and are standing before Feltrina."  
Italian Headquarters in Northern Italy, Sunday, Nov. 11.—(By the Associated Press.)—The enemy's operations on the north and east in an attempt at encirclement of the Italians have not succeeded. The menace on the Italian left wing also is virtually past.

The concentration of the Italian army along the newly-chosen line of defense is now virtually an accomplished fact. The troops have taken up their positions in trenches, the gun emplacements have been made ready and the whole vast organization is preparing for the battle that is not so far off. The men are in good spirits, and a feeling of determination prevails in all ranks.

Retirement of that part of the Italian force in the Carnic district of northern Venetia has shortened the Italian main front, which now presents a compact line extending about 20 miles along the new river defenses to the sea.

The allies are represented on the new front by some British batteries from the Carso. The presence of allied forces is regarded as of the highest importance for its moral effect on the Italian troops, which thus far have borne the entire shock, as well as for its purely military value. England's announcement that she will continue to send reinforcements without delay and spare no effort to prevent a further invasion of Italy arouses the keenest satisfaction and enthusiasm here. The visit of General Wilson, sub-chief of the British staff, also inspired renewed confidence as to the intentions of the allies.

It may now be stated that the present line of defense is the only first-line which the supreme command has ever considered seriously. The Tagliamento and Livenza lines were designed merely to block the progress of the enemy up to the present defenses. The correspondent received this information authoritatively, 10 days ago, but was then unable to divulge the location of the line, for reasons dictated by military necessity.

# MRS. BURNHAM JAMAICA, N. Y.

Sufferings Cured by Medicine Recommended by Sister-in-law.

Jamaica, N. Y.—"I suffered greatly with my head and backache, was weak, dizzy, nervous, with hot flashes and felt very miserable, as I was irregular for two years. One day when I was feeling unusually bad my sister-in-law came in and said, 'I wish you would try Lydia E. Pinkham's Compound.' So I began taking it and I am now in good health and am cured. I took the Compound three times a day after meals, and on retiring at night. I always keep a bottle in the house."—Mrs. L. N. BURNHAM, 236 South St., Jamaica, N. Y.

Women who recover their health naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

# CONGRESS UNWILLING TO VOTE WAR BILLIONS

Enormous Sums of Money Authorized Without Protest or Dissenting Voice.

Since war was declared on Germany last April, congress has appropriated more than \$7,000,000,000 for the army and \$1,000,000,000 for the navy. This includes the enormous appropriation in the recently enacted \$8,000,000,000 urgent deficiency bill. It does not, however, include more than \$2,000,000,000 of contracts which the army and navy have been authorized to negotiate, but for which no cash has yet been made available. By the time congress re-convenes in December, several billions more will be needed, although authorities believe that with the initial expenses met, the war's cost in dollars and cents will not be quite so tremendous.

Last April congress passed the army appropriation bill carrying \$273,000,000. At about the same time it passed the naval appropriation bill carrying \$517,000,000. In June, after the unprecedented money needs of the war began to be foreseen, congress passed a deficiency bill, giving the army \$2,315,000,000, and the navy \$514,000,000. In the urgent deficiency bill just passed, the army is allowed \$4,352,000,000 and the navy \$573,000,000.

In the last deficiency bill a single item of more than \$2,000,000,000 was provided for the purchase of ordnance and ordnance stores. This is an illustration of the gigantic scale upon which the United States is going into the war. The measure provides for building, construction of works of a semipermanent character in France so as to prepare for years of warfare if necessary.

Congress has voted all these enormous amounts without a protest or a dissenting voice. Not even a roll call has been required for the final passage of the big money bills. Members, including even the pacifists, want the American soldiers to be the best conditioned fighting men in the world, and it is realized that one of the surest guarantees of minimum casualty lists is money sufficient to equip the troops for every emergency.

No other legislative body in the world has passed big war budgets with such a willingness as the American congress. There have been protests and votes against the enormous war expenditures even in the cowed German reichstag.

# BIRDS CLEAR CABBAGE

Ate All the Worms in a Patch and Then Flew on.  
The tenant on the farm of Francis M. Stevens of Columbus, Ind., found that his cabbage patch, seven miles west of Columbus, was about to be ruined. Green worms had attacked the cabbage and it was next to impossible to see them. The tenant decided that his cabbage plants were doomed and that the crop would be a total failure. While he was lamenting his loss he saw a cloud. The cloud proved to have a silver lining, for it was a cloud of birds. The birds settled on the cabbage patch and began systematic work. When they finished they had cleaned the patch of every green worm in it. The birds did not touch anything aside from the worms. When they finished the job they flew on. The farmer does not know what sort of birds came to his rescue, but he says they were neither sparrows nor blackbirds.

# CONSTIPATION CAUSES OBSTINATE HEADACHES

When your head aches you will usually find the bowels have been inactive, and if you relieve this condition, by clearing the intestinal organs of the fermenting congestion of stomach waste, foul gases and bile, the head is relieved immediately.  
Remember this the next time you suffer from headache. The combination of simple laxative herbs with peppermint oil by Dr. Caldwell's Syrup Pepsin, is highly recommended as a gentle laxative that acts easily and quickly, without griping or discomfort. It contains no opiate, narcotic, or habit-forming drug, is pleasant to the taste, and a most effective household remedy. Mothers find it especially desirable as a laxative for children.  
You can buy Dr. Caldwell's Syrup Pepsin from your druggist for fifty cents. Get a bottle and have it in the house when needed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 436 Washington St., Monticello, Illinois.

secondary to saving priceless monuments like the Campanile, the Palace of the Doges and St. Mark's from bombardment. All the chief paintings of Titian and Paolo Veronese have been removed to Florence, but scores of great frescoes cannot be taken away.  
The splendid service which the Italian cavalry has performed as a rearguard has a melancholy sequel in the death of Major General of Cavalry Ruben de Cervin, who was commanding an infantry division. He fell at the head of his troops and died while being attended by military surgeons.  
The heroic resistance of part of the thirty-sixth division of infantry also has received the highest praise. It resisted surrender until surrounded by an enormously superior force, with its ammunition exhausted.

# CONGRESSMEN UNDER FIRE AT VIMY RIDGE

(ASSOCIATED PRESS TELEGRAM)  
Paris, Nov. 12.—The American congressmen who have been visiting the British, French and American fronts returned to Paris yesterday. While near Vimy ridge on the British front they were under shell-fire. They saw a bombardment of German positions on the French front.  
On the American front the congressmen were guests of officers of the engineers. Several representatives chattered with American soldiers who had returned from the trenches. They also visited American batteries and the headquarters and cantonments behind the lines.

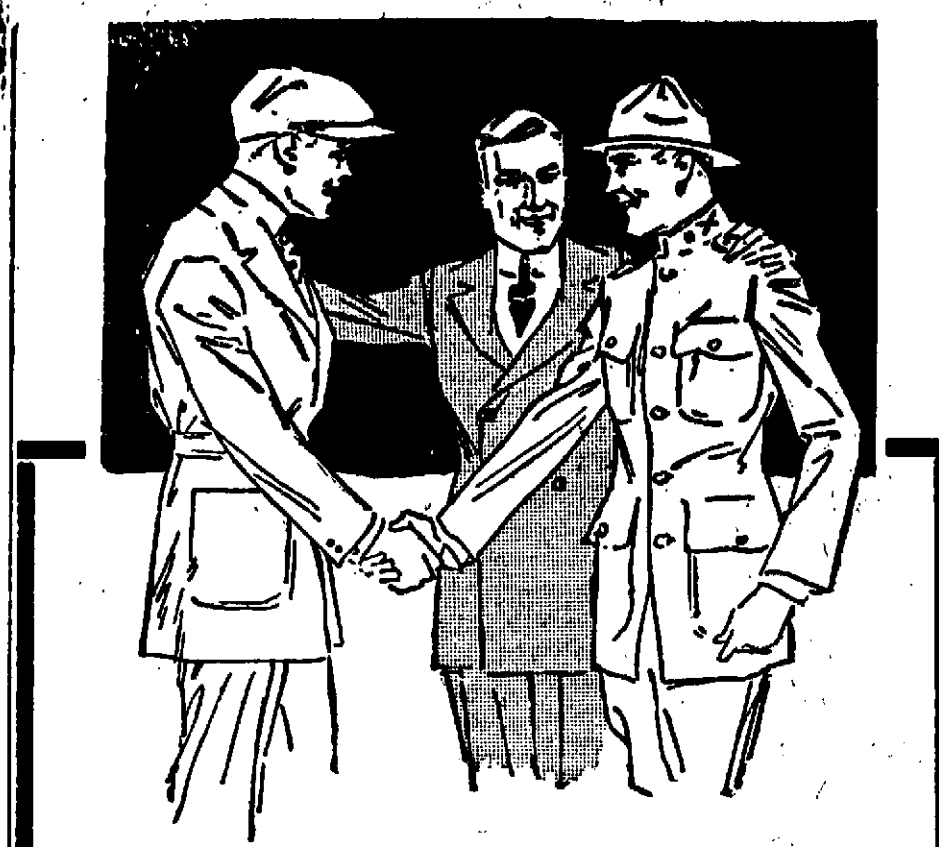

# CROOK KILLS OFFICER AND ESCAPES IN CROWD

(ASSOCIATED PRESS TELEGRAM)  
Cincinnati, O., Nov. 12.—City Detective Al Wegener was shot and killed at noon today in the pawnshop of Walton C. Levi on Central avenue while attempting to arrest a man who the police believe is the daring bandit who robbed the jewelry store of Edward Metzger two weeks ago. Wegener fired two shots at the man while lying on the floor but neither of them took effect. The man made his escape. Wegener was shot as he approached a man who had entered the pawnshop, the man turning quickly and without warning fired at the detective.

# OFFICIAL COUNT IN TWO COUNTIES NOT RECEIVED; WETS LEAD

(ASSOCIATED PRESS TELEGRAM)  
Cincinnati, Nov. 12.—With every county in the state of Ohio having reported officially, eighty-six of them to the secretary of state and two of them from county seat officials, prohibition in the state was defeated at the election last Tuesday by a majority of 1680 on the face of the returns. The counties that have reported officially but whose report has not reached the secretary of state as yet are: Coshocton and Pickaway. Pike county's official return were identical with the unofficial figures.  
The total vote of the state with these two counties tallied according to reports from their county seats, and all others counted as reporting to the secretary of state, stands: For prohibition, 522,445; against, 524,135.

## AKRON PEOPLE WALK TO WORK; STREET CAR MEN WANT MORE PAY

(Associated Press Telegram)

Akron, O., Nov. 12.—All Akron was walking to work this morning on hanging on overcrowded jitneys. More than 1000 streetcar men were on strike on every line in the city and every line originating from Akron.

The strike includes the interurban lines to Cleveland, Ravenna, Kent, Cuyahoga Falls, Barberton and Wadsworth, in addition to all lines of the city.

The only cars touching Akron in operation were the Canton-Akron interurbans, employees of which are not included in the local division of the union.

Canton car crews were playing safe. They were running only to the eastern city limits and taking no chance of coming into the city.

A heavy fog hung over the city, making walking uncertain and driving unsafe. At every street car stop men and women who did not realize that a strike was on were waiting for cars to come.

The strike came with dramatic suddenness. The public had been forewarned by a strike vote of the union Saturday morning, but events that followed gave promise of a settlement.

At 7 o'clock this morning, following an all-day conference with General Manager Blinn of the Northern Ohio Traction and Light company, the executive committee of the Car Men's Union agreed to a 24-hour postponement in case they could hold the men. The postponement was asked in order to give an international organizer of the union to reach Akron to take part in the negotiations.

At 2:30 this morning, General Manager Blinn was notified by an executive committee member that the A. B. C. division would not agree to the executive committee's decision.

The executive committee, was without power to bind the union, a member said. The union had voted to strike at 3 o'clock Monday morning unless the company granted a wage-increase of 10 cents an hour or \$1 a day.

In the interim the executive committee had power only to negotiate with the company and submit to the men any compromise offer made by the company. The only power to call off the strike was in the union as a whole.

## W. V. BAKER, BANKER IN COLUMBUS, DIES; WELL KNOWN HERE

W. V. Baker, president of the Market Exchange Bank and the Guaranty Title and Trust company, died at 5:05 Sunday evening at his apartment in the Hartman Hotel Annex, Columbus, from a stroke of apoplexy which he suffered Friday shortly after lunching at the Hartman.

He was aged 54 years. The deceased was born at Thornport, Perry county, Pa., and while a young man was a teacher near the present government aviation field at Fairfield. He studied law while teaching and later entered Ohio State University. Few men in Columbus were more generous in their benevolences. At one time he was general manager of the Peruna company, later withdrawing.

Short funeral services will be held Tuesday in the Masonic Temple at Columbus and the body will be taken to Thornville for burial.

## JOHNSONS ARE AGAIN IN LOCAL COURTS; UNDER PEACE BONDS

Mrs. Vidalia, wife of Fountain Johnson, was brought into Justice Fletcher S. Scott's court today on a peace warrant, the affidavit having been filed by her husband, who charged that he had reason to fear bodily harm. The defendant was placed under \$500 bond to keep the peace until the hearing Friday. Samuel Shackelford signing the bond.

Mrs. Johnson then subscribed to an affidavit against her husband, charging that she had reason to fear that he would do bodily harm, and he was brought into court and his bond placed at \$500, until the hearing the same day as that of his wife. The defendant soon gave bond and was released.

## NO DATE YET FOR NEXT QUOTA; WILL GIVE AMPLE NOTICE

The local draft board received a statement today from Adjutant General Wood at Columbus, informing the board that no definite time had yet been named by the government for sending the last quota of drafted men to Camp Sherman. He said the board would be notified as soon as the date was set, so that the men might have ample time to make their preparations.

Inquiries have been made of the local board as to whether a drafted man has been called for examination may enlist. A ruling on this point by army officials in charge is to the effect that he can not enlist but must report for examination. This may be modified, however, as the matter is under consideration by the government.

## LICKING COUNTY SOLDIER BOYS

Editor of The Advocate:—I wish to thank you and the people of Licking county for the service medal which you sent me some time ago. I assure you that I am very proud of it and take great joy in showing it to my friends who have admired it and wished for one of them. It is something which shows to us that our friends are thinking of us and we can keep it through life. I am in the Hospital school and like it fine. I am expecting to come up for examinations some time in January. Here is our course of studies: Anatomy and Physiology. First aid and emergency nursing, hospital duties and ward management, naval hospitals, hygiene and sanitation, pharmacy, materia medica, chemistry, toxicology and like it. This keeps us pretty busy. We go to school Monday, Tuesday, Wednesday and Thursday, school hours being from 9:30 a. m. to 3:30 p. m. Tuesday and Wednesday night from 7 p. m. until 8:15 p. m. We have two watches, starboard and port which go ashore Sunday, Wednesday and Saturday, alternately, thus giving us three shore liberties in two weeks. Some of our amusements are billiards, basketball, football, baseball, moving pictures and many other indoor sports. I wish to impress upon the people the value of the Y. M. C. A. It is doing a great work in helping the boys to live good clean Christian lives in furnishing them a place where they can read and write, amuse themselves at games, hear good debates and lectures. Every Sunday evening there is a lecture in the Y. M. C. A. At Newport and after the lecture the ladies of one of the churches of Newport entertain the navy boys and then they go to church. They have been giving a supper, accommodating from three to four hundred every Sunday evening for nine years, and the boys certainly appreciate it. It inspires them with noble thoughts and does them good to be with good Christian ladies who try to take the place of mother, at home hoping and praying that some place her boy is being treated the same way. I have written this thinking that it may comfort some dear mother who is worrying about her boy who is away from her tender and watchful care. I feel sure that he will be happy knowing that he is under the protecting care of the Y. M. C. A. and the ladies of Newport who are helping him to live a good Christian life and be a man. Thanking you again and extending my best wishes I remain, yours respectfully, Ernest R. Wintermute, H. A.—2, Hospital School, Naval Training Station, Newport, R. I.

Editor of The Advocate:—Please accept my thanks for the medal which the people of Licking county present to me. I certainly appreciate it and always will hold it dear as a memory for the many things which the generous people of the best country on the map have done for us. I hope that when the time comes for actual service we may be able to serve our country far beyond your expectations. With thanks and best wishes to all I remain your friend, Sgt. Oliver S. Parr, Co. A, Military Police, Camp Sheridan, Montgomery, Ala.

A ruling on this point by army officials in charge is to the effect that he can not enlist but must report for examination. This may be modified, however, as the matter is under consideration by the government.

paper and envelopes that a fellow needs and a fellow has no excuse for not writing. They have a sign in the Norfolk "Y" which reads: "How long since you have written to MOTHER?" I think that it causes many a fellow to pick up a pen and grab some paper and clear his conscience.

I do not think that anyone could put their money to a better advantage than to contribute to the Y. M. C. A. I do not have much time for letters since I passed the radio examination. They keep us pretty busy. The first few days I had little or nothing to do but now it is different. I will be here about three weeks longer in training and will be sent aboard ship.

Someone has subscribed for the Advocate and is having it sent to me. I do not know who, but I wish to thank them. I certainly appreciate it very much. Will you please change the address? Sincerely yours, Merle E. Martin, U. S. N. Tra. Station, Naval Operating Base, Norfolk, Va., Radio Squad.

Mr. A. S. Mitchell has just received the following letter from H. J. Glancy, sergeant headquarters company 112th Ammunition Train Camp Sheridan, Alabama.

"We have been reading through the papers recently in regard to the effort made to raise \$35,000,000 for the Y. M. C. A. work for the army, and in reply to your communication of November 6th, wish to go on record as heartily approving the movement. There is no place quite so popular in an army camp as the 'Y'. This is where the boys go in the evenings to write home, visit with their friends, witness some clean entertainment and turn in at 'taps' with the feeling that they are not so far away from home after all. On Sundays there is always the usual church services, both Protestant and Catholic, and on Wednesday evenings vesper services are held. Then there is the athletic feature, not to be overlooked. Places and facilities are furnished for the playing of tennis, basketball, foot ball, hand-ball, etc., and all this without any obligation to the soldier. It can be truly said that there is nothing in an army camp that so contributes to the moral and physical welfare of the soldiers than the Army 'Y', and the people of Licking county can donate to no better cause than this. I trust your committee will more than succeed in raising their allotment."

## FAMILY BRUISED IN AUTO COLLISION AT 11TH AND W. MAIN

A taxicab in which the family of Dennis Hall of 172 South Pine street were returning from a funeral, and a machine driven by Ernest Walters of 197 Mahoning street, collided at the corner of Eleventh and West Church street, Sunday afternoon at 3 o'clock.

While the Walters machine was badly damaged the Halls escaped injury, but not so the passengers who were badly shaken up. Mr. and Mrs. Hall with their daughters, Misses Helen and Hazel N. Hall were returning from a funeral north of the city. The other car belonged to W. M. Walters, contractor, and was driven by his son. The Bazel ambulance was called and the Hall family were taken to their home in South Pine street, where Dr. Willard Rank was called to attend them. Their injuries were not serious.

## MRS. NORDLING OF COLUMBUS SAYS "IT'S WONDERFUL"

"I Shall Keep Nerv-Worth in My Medicine Chest All the Time," She Declares.

This strikingly convincing Nerv-Worth endorsement was given by Mrs. Nordling a few days ago while at Baer's Pharmacy, Wheeling. Her original purchase of this famous family tonic had been made of the Nerv-Worth druggist at Columbus. Now read her reasons for the use of that eloquent word "Wonderful."

"I was exceedingly nervous and my system in a terribly run-down condition. I had stomach trouble and indigestion so severe that my food would ferment and I would belch up some sour and bitter stuff. Badly constipated, I did not get any regular sleep but tossed about many hours during the night. I was very weak. Pains in my side and back caused me much misery."

"After using one bottle of Nerv-Worth MY AILMENTS HAVE ALL DISAPPEARED and I feel as well as ever, strong and vigorous. It is a wonderful remedy in its quick and permanent results, and I shall keep it in my medicine chest at all times. I recommend it to everyone needing the relief I obtained."

## VAIL HONORABLY DISCHARGED; BACK HOME FROM CAMP

Hubert Vail, son of Mr. and Mrs. George Vail of North Fourth street, who has been with the Motor Train company at Camp Sheridan, Montgomery, Ala., returned home Saturday night having been honorably discharged owing to physical disability.

Several years ago Vail injured his knee in a motor cycle accident and since being in the service he has dislocated the member twice. In the final examinations at the camp a number of the men were discharged.

## SALVATION ARMY IN NEED OF DONATIONS FOR RUMMAGE SALE

The local post of the Salvation Army is arranging to give a rummage sale to raise funds for the war work of that organization. The Salvation Army is at work in all the cantonments, has ambulances on all the battle fields of Europe and its workers are carrying cheer and the omen message to the front line trenches.

Your contribution of cast-off articles will do a double service in helping clothe the poor at home and aiding the Salvation Army in its errand of mercy among the wearers of khaki everywhere.

Any contribution from a pocket handkerchief to a touring car will be accepted. Send contributions to the Army hall, 49 North Fourth street or call Auto. phone 3146.

## PASTORS PLEAD FOR MORE MEN IN WORK

The annual mission Sunday was observed at St. John's church with special services yesterday in the Sunday school and the German morning services in which Rev. A. Klick from Tiffin spoke, setting forth the importance of mission work and giving valuable information on the subject. Rev. Mr. Klick spoke specially of the great need of more men in the field and urged both Sunday school and congregation to bend every effort in helping the church to send out more workers. In the English evening services Rev. Klick gave a short address which was followed by a sermon by Rev. Dr. R. R. Fillbrandt, pastor of the Pilgrim Evangelical church of Zanesville. Rev. Fillbrandt spoke of the dire need of more efficient work by the congregation in its own community, stating that the church is not living up to the progressive program of the Master. All sermons and addresses were heard by large congregations which offered largely for the cause of missions.

## THIS WEEK'S CAMPAIGN.

In practically every church in Licking county yesterday the important work of the army Y. M. C. A. was explained and an appeal was made for prompt and hearty response to this week's call for funds. A hundred Newark men assembled at the Chamber of Commerce rooms Sunday morning and were there assigned to speak in the country and village churches all over the county. Everywhere the message was heard with keen interest and many for first time learned of the important part the Y. M. C. A. is taking in the lives of the American soldiers both here in the cantonments as well as in the battlefields of France. It would be a calamity to discontinue the army Y. M. C. A. service. In order to carry on the work up to next July and to extend the scope of the effort the sum of \$35,000,000 is required. That seems like a vast sum yet when one learns of what the Y. M. C. A. is doing for our boys in khaki he is ready to say that it is worth the price. Licking county is asked to give \$30,000, and one-half of that amount is to be raised in Newark and the other half in the country and village precincts outside this city.

Tomorrow morning 200 Newark men will go out among our people to raise \$15,000, and during the week the several townships will be expected to raise the sums assigned to them. Licking county has responded nobly to the Red Cross appeal, to the first Y. M. C. A. call, to the first and second Liberty loans, and she will not fail to do her share in this week's campaign. Today there are nearly 70 Licking county boys in France, about 300 at Camp Sherman, Alabama, and many others in the cantonments and training camps over the country—a total of not less than 600 of our best young men.

These young fellows, many of whom have given up good positions, paying several times as much as they receive for army service, deserve the best that we can do for them. Our sacrifice of dollars is not to be compared with the sacrifice they are making for us.

## WHY SAVE FOOD?

Newark women, who, at the suggestion of the national food administration, are asking the home-keepers of this city to sign the food conservation cards report great progress, yet in many instances signatures are denied because of a misunderstanding of the purpose of the movement. Some fear that it means confiscation of the food products in their cellars! It is nothing more or less than an educational movement to teach conservation of food and substitution of one for another. That's all. We must feed our allies who are fighting our fight in Europe and it is highly important that we send our wheat, our meat, and certain other foodstuffs to Europe in great quantities. Our people must learn to eat cornbread instead of wheat bread and must grow accustomed to meatless days. If food cannot be saved through the voluntary co-operation of our people other means must be resorted to for we must furnish our allies with food. Food will win the war.

The poor widow who uses a lump of sugar a day for her tea will, no doubt, be able to save part of it, but not so those who need a box of candy daily to drive away the bad taste from their mouths.

The New York Herald asks the girls to refuse treats of candy and ice cream so as to save sugar. No objection is heard from the general run of impecunious suitors.

The Austrians, Russians, and Italians have successfully competed for the long-distance running record, but the Americans have decided not to enter for this event.

After starting a rumor that the allies are going to desert Russia, the Germans start another that Russia is going to desert the allies.

The allies have now proceeded very carefully to double-lock the Italian door after a very valuable horse has been stolen.

It is denied that traitors should be electrocuted, as they should merely be banged to the nearest lamp post.

Some people are determined that the Liberty bond must succeed even if their neighbors put up their last dollar.

It is certainly hard to paper the pantry shelves for the Thanksgiving pies without the congressional Record.

The high price of skunk fur is accounted for by the growing scarcity of black cats.

Kaiser Bill came very near getting in his Italian drive just in time to help the Liberty loan sale.

## ENTERING THE WAR.

There has been some disposition among critics of the national administration, to blame Mr. Wilson and his adviser for not getting into the war earlier. Yet the predominant sentiment among Americans up to the time Germany began avowedly to sink our ships, was to keep out of the war. It may have been a selfish point of view, but any nation would have drawn back from a cost so staggering in lives and money. If we were at fault, it was a fault that all humanity would have shared if in our place.

A great many of our people took the issues of the war too lightly. They did not stop to read under the surface and see what a terrible threat Germany was indirectly offering to us. Mr. Wilson was not responsible for this public sentiment. Over and over again he pleaded with congress for more decided action. Pacifist sentiment was strong on both sides of the house. It came very near passing resolutions that would have greatly embarrassed our government in standing up for our rights.

It always takes some aggressive overt act to drive a peaceful people to war. Mr. Wilson could not make war unless he had the people behind him. If he had demanded a war declaration three months earlier, congress would have refused to follow. That would have encouraged Germany and made her think more than ever that we were incapable of action. Had war been declared against a strong minority, our war-making efficiency would have been great hampered by discord at home.

President Wilson wisely waited until he learned that the people were with him. Then he struck and struck hard. The people responded as they would not respond a short time before. We took the psychological moment to act when our action would produce its maximum of effect.

## DEFEAT OF MITCHEL.

(Cleveland Plain Dealer.)  
None of the many results of Tuesday's elections throughout the country caused more genuine regret than the defeat of Mayor John Purroy Mitchel in New York. The mayor had impressed himself upon the country as a fearless, independent, thoroughly American executive who deserved re-election upon his record. What was more important, New York needed another four years of his kind of administration. Unhappily, New York itself was less impressed with Mitchel than was the rest of the country. Tammany comes back. Unless the unexpected now happens, the metropolis is in for another reign of Tammany government, than which no worse fate could be wished on any community.

## THE NEGRO SOLDIERS.

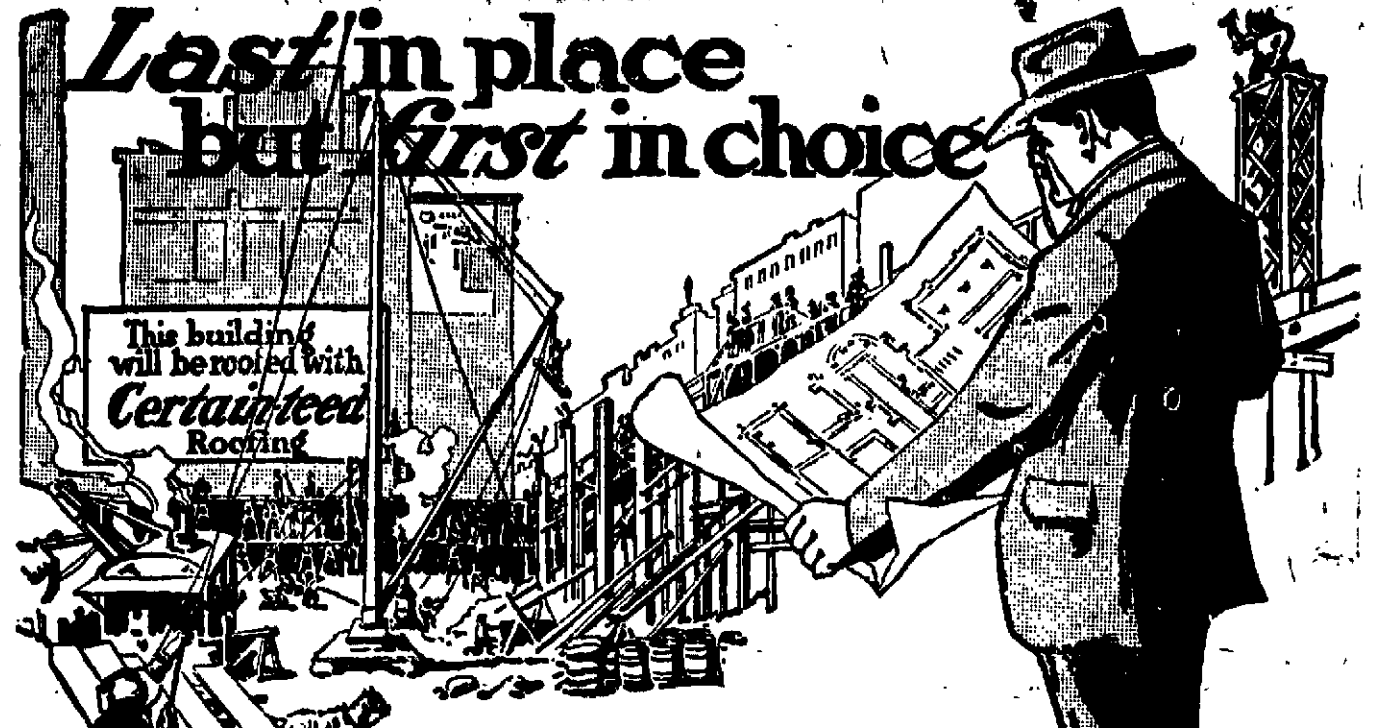

(Columbus Dispatch.)  
About ten per cent, or sixty thousand, of the selected men in the army are negroes. They are in practically all of the camps and are being drilled in many instances by officers of their color. They have their own organizations; that is, the colored men and white men do not belong to the same companies or regiments. These colored troops seem to be getting along very well. But there are a lot of people in this country who seem to know more about running an army, or conducting a war, than those who have made a life study of it. These busy-bodies are now trying to stir up trouble in regard to the negroes. They are well-meaning, perhaps, these busy-bodies—but they are impracticable in most things. One of the propositions is to 'create a separate negro division' to put all of the colored troops into one great camp. Another proposition is to break up the regiments, and distribute the companies among the white regiments. Both propositions appear to be absurd to the war department, and to those who are giving all their thought to the winning of the war.

The negroes will give a good account of themselves when it comes to actual fighting. They are good soldiers. They have courage and endurance, about all that is necessary in making a soldier. If we except discipline, and the negro is easily disciplined. He obeys orders readily. So we need have no fear about the service the colored troops will render to this country when the time comes. The real friends of the negro will let the war department regulate the army as it fits, and not seek to make it any harder for either white or colored troops.

## SUFFRAGE.

(Ohio State Journal.)  
"New York has decided that women are people," says The Public Ledger, but Ohio, poor, dear old state, decided they are not. It decided they were nobody but dishwashers, baby raisers and darners and knitters, and that they had nothing to say regarding the great social and moral considerations of life, with which they are intimately connected. The men would make this state the backwoods of human progress, amid the old stumps and logs and oaks, away from the stirring logic of reality. The dogged prejudice of men will hang on, and in the place will come friendship for women that will blossom into recognition of their rights and duties.

on your building you will get the most efficient roof, and will cut down the cost of the roof materially.

CERTAIN-TEED Roofing is economical to buy, inexpensive to lay, and it costs practically nothing to maintain. It is weathertight, fire retardant, clean, sanitary, and gives the utmost roofing service over a period of years. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

The quality and merit of CERTAIN-TEED have made it the preferable type of roofing for office buildings, hotels, factories, stores, warehouses, garages, farm buildings, etc. If you are building it will be to your interest to investigate CERTAIN-TEED.

There are many roll roofings, but only one CERTAIN-TEED. As it costs no more to lay a CERTAIN-TEED Roof than it does to lay a poor roof, it will pay to get the best, and save on renewals and upkeep. You can't tell the quality of roll roofing by its appearance, or by feeling of it; your only safety is in the label. Be sure it is CERTAIN-TEED.

### Spirit of the Press

**What Germany Fears.**  
It is interesting to note that in all of the comment of German military critics on the part that America will play in the war next spring there is only one phase of our war activities that is not minimized—the aviation service. Practically all of the Teutonic experts seem to be agreed that the United States cannot send more than 500,000 soldiers to the Western front in the next six months and many of them doubt that it will be possible to transport even that many. But the critics do fear American airmen, and the course of the war indicates that it is a justifiable fear. Even if the Allies at this time do not hold aerial supremacy in the West, the belligerents are so evenly matched in this respect that the United States can easily swing the balance preponderantly in favor of the Entente. Germany fears that America will send 10,000 airplanes into France next summer. The critics are alarmed over this possibility of cooperation of the air agency that might swing the war against the Germans in the West.—St. Louis Post Dispatch.

### One Cause, One Strategy.

The conference of the premier of England, France and Italy in Rome, at which the United States will be represented, should result in a general staff that will have complete charge of both western fronts, the Franco-Belgian and the Italian. Germany has taken advantage of the lack of cooperation of the forces facing her in the West, as well as of the inactivity of the Slick Bear to the East. With the Austro-Hungarian, Bulgarian and Turkish armies completely under the power of the German general staff, the strategy of the Kaiser's generals has had a unity of purpose and performance lacking in the efforts of the Allies. There should be no distinction among the American, French, English and Italian armies henceforth except so far as it is necessary to their efficiency. Italy's cause is our cause, England's cause, France's cause. Let us move as one great army in this effort to throw back the recalcitrant Hun.—Cincinnati Times-Star.

### A Grip on Prices.

The national food administration voices a confident expectation that it will succeed in its stupendous work of substantially cutting out unlawful profiteering, hoarding and speculation. It is gratifying to have the reassuring statement from the food administration that with few exceptions those engaged in the handling of food have shown the utmost patriotism and a desire to go even beyond the requirements of the law itself in supplying the public with necessities at moderate prices. The public should not raise false expectations.

### APPEAL TO PATRIOTISM.

(Kansas City Star.)  
There are three ways of saving food on a nation-wide scale. We can let the price go up, we can appeal for voluntary saving, or we can adopt the first method we permit prices to rise to a point where they automatically curtail consumption. If the 15-cent loaf of bread were to cost 25 cents, the use of bread would automatically be curtailed.

In America we always have depended on this automatic action of the law of supply and demand.

Now we are trying the second way—an appeal to people on the grounds of patriotism voluntarily to curtail consumption. We are asking them to eat corn bread instead of wheat bread, not because corn bread is more economical, but in order to leave more wheat for export. We are making the same sort of an appeal on meats and sugar and fat. We are trying to keep the prices down to reasonable proportions, trusting to patriotism to make people heed the appeal.

If this method fails we shall have to try one of the others. For food must be saved.

One great advantage in making aliens learn the national anthem is that they will then be able to teach it to native Americans.—Boston Herald.

It is an hour not for requisition or eulogy. The glory of our men in the trenches is secure. It is for us at home to set our wills anew, to search our hearts, and clearing away pettiness and selfishness, and doubt, dedicate ourselves to the one cause for which our men died and are to die.—New York Tribune.

### APPEAL TO PATRIOTISM.

(Kansas City Star.)  
There are three ways of saving food on a nation-wide scale. We can let the price go up, we can appeal for voluntary saving, or we can adopt the first method we permit prices to rise to a point where they automatically curtail consumption. If the 15-cent loaf of bread were to cost 25 cents, the use of bread would automatically be curtailed.

In America we always have depended on this automatic action of the law of supply and demand.

Now we are trying the second way—an appeal to people on the grounds of patriotism voluntarily to curtail consumption. We are asking them to eat corn bread instead of wheat bread, not because corn bread is more economical, but in order to leave more wheat for export. We are making the same sort of an appeal on meats and sugar and fat. We are trying to keep the prices down to reasonable proportions, trusting to patriotism to make people heed the appeal.

If this method fails we shall have to try one of the others. For food must be saved.

## The Wasteful Coal Scuttle

How many extra scuttles full of coal do you burn in a year to get hot water on washdays?

Those scuttles are more expensive wastes now than ever.

Use Fels-Naptha. It makes boiling water unnecessary. No need to waste coal when Fels-Naptha works splendidly in water of comfortable temperature. Begin to use Fels-Naptha next washday.

## OBITUARY

### Dr. A. P. Bell

Dr. Arthur P. Bell, a prominent Zanesville dentist and son of the late John H. Bell of Brownsville, this county, died in a Zanesville hospital, Sunday afternoon about 2 o'clock aged about 49 years. Dr. Bell had been in illhealth for some time. He was taken to the hospital a few days ago for an operation for appendicitis but his condition apparently improved and the surgeons did not operate. The funeral will take place at his old home in Brownsville, Tuesday at 9:30 a. m., standard. Besides the widow, Dr. Bell leaves three sons.

Mrs. Joseph Hamilton of Gratiot, Mrs. Margaret Cooper of Gratiot, Mrs. T. F. Frankenhofers of Columbus, are sisters of Dr. Bell. The funeral services tomorrow will be conducted by Rev. Walter Whalton.

This morning's Zanesville Times-Recorder contains an extended sketch of Dr. Bell's busy life and upon its editorial page pays the following tribute to him: "One of the kindest, kindest, and friendliest of Zanesville's professional men passed away Sunday with the sudden death of Dr. A. P. Bell. He was wedded to his family and his profession, and aside from these his friends and his fellowmen were uppermost in his thoughts. He practiced his profession not with the thought of financial gain to himself, but of the relief he could give those in need of his service. As a practitioner he ranked with the best in his profession, but he was too kind-hearted to collect his bills where he thought their payment would work any hardship on his clients. He was highly esteemed by all who knew him, his death was a severe blow to his family and close friends, and a shock to all who knew him."

### Jessie Davis

Hebron, Nov. 12.—Jessie Davis, 33 years old, son of Newton Davis, died at the home of his parents here Saturday morning following a six months illness of complications. He was taken ill at Akron, where he was employed in a rubber factory, and when his condition became serious returned to Hebron about four months ago.

He is survived by his wife, his father and mother, three brothers and two sisters.

Funeral services will be held Tuesday morning at 10:30 o'clock at the Church of Christ, Rev. H. H. Carter, assisted by Rev. T. B. White, officiating. Burial in the Hebron cemetery.

Mrs. Sereno Haynes.

Mrs. Frances Haynes, wife of the late Sereno Haynes, died at her home in Granville Sunday morning at 3 o'clock, death being due to

pneumonia. The deceased is survived by two daughters, Mrs. Thos. Goff of Newark, and Mrs. Martin Wilson of Hebron, three sons, Ace of Newark, Ora of Dayton, and Arthur of Springfield, one sister, Mrs. Harriett Baker of Granville, and one brother, Henry Ashton of Newark. Funeral services will be held at the home Tuesday morning at 10 o'clock, conducted by Rev. Millard Brooksford, assisted by Rev. C. N. Sanford. Interment will be made in Maple Grove cemetery.

**Death of Infant.**  
The infant child of Mr. and Mrs. Frank Viogi died this morning at the home of the parents, 147 Jefferson street. The funeral was held this afternoon, interment being made in Mt. Calvary cemetery.

**Mrs. Cynthia Claggett.**  
Mrs. Cynthia Claggett, aged 77 years, died on Saturday evening at 9 o'clock at her home in Sixteenth street. She suffered a stroke of paralysis last Tuesday which resulted in her death. She is survived by two sisters, Mrs. Ella Mitchell of Dayton and Mrs. Orpha Sturman of St. Louisville, three daughters, Miss Anna Claggett of the home, Mrs. Lula Ewing of Union Station, Mrs. Emma Wilson of Hanover, and three sons, Bernard, and Charles Claggett of Union Station and Otis Claggett of Newark.

Funeral services were held at 10 o'clock Monday morning at the Primitive Baptist church, and burial was made in the Pleasant Hill cemetery, north of Hanover.

### FACE PAINT TABOOS REMOVE SKIN INSTEAD

"A few years ago only one class of women painted their faces," says Dolly Maden. "It was a sign of social ostracism and was tabooed in refined circles. The custom has become so universal we must admit it is to be deplored and to be shelved as soon as possible."

How foolish to seek artificial "beauty" of this sort, obnoxious from artists and moral standpoint, when it is so easy to obtain a truly natural complexion by the use of ordinary merced wax, which may be had at any drug store in original one-ounce packages. This merced wax is so effective and so harmless, no one need think of using anything else for the purpose. Applied like cold cream at night, and washed off in the morning, it at once begins to show its remarkable rejuvenating effects. It gently absorbs the lifeless surface skin in tiny particles, gradually showing the fresher, livelier, beautiful under-skin. Naturally it takes with it all surface defects like freckles, pimples, chaps, moth patches and liver spots.—Adv.

**Just a Precaution.**  
"So you are attending cooking school?" said the friend. "Are you going to do your own work after you are married?"

"No, I want to be able to teach my husband how to prepare the meals in an emergency."

## Our Boys and Girls

Another lesson in hygiene for the little woman is that of keeping her own brush and comb clean. No amount of scrubbing in soap and water will satisfactorily clean between the teeth of a comb as she should use a strip of muslin and pull it back and forth between the teeth as though she were a boot-black. A small quantity of borax or ammonia should be added to the water in which both comb and brush are washed. They should be allowed to soak half an hour before they are thoroughly cleansed. The ammonia may be placed in the soaking water and a strong soap used in the second water. The brush should then be rinsed in hot water and then in cold to stiffen the bristles.

Still another precaution must be taken with the tooth powder that boys and girls use. Let them have their own little box of it or their own tube of paste. Tooth powder, by the way, should never be shaken out in the hand but go directly on the brush.

Hoax—"So you were disappointed in Niagara Falls, eh?" Joax—"Well, after my high expectations, it was a great come down."

## SOME FAMOUS BATTLE CRIES

"Marmalade Forever!" Peculiar Slogan Which Scotch Regiment Originated During Charge.

"Marmalade forever!" This quaint battle cry originated from a certain Scotch regiment during a charge in the present war, says London Answers. "Stand, the Camerons!" is the roar of another regiment of the "kilties," and serves to corroborate the fact that as official reports have it, "the spirit of our troops is excellent."

Among others there is the gallant cry of "Stick it, Welsh!" uttered by the late Captain Haggard, which has been an inspiration to many Welsh bards. It is sad to recall that Capt. E. Langdale, whilst encouraging his men with the gallant cry of "Come on, the Leicestershires!" fell on the field. But the Leicestershires did "come on," with disastrous results to the Hun.

We must not forget, however, that famous cry of "Kamerad!" uttered by whole German regiments, which has perhaps, encouraged our men more than any other. There is an amusing tale told of one of our Tommies who, during a charge, was about to give a certain Hun a glimpse of the "great beyond," when up went Fritz's hands.

"Kamerad!" he yelled. Tommy lowered his bayonet.

"Hang it!" he muttered. "That's the blooming word I was trying to think of when arguing with Nobby Smith!"

## RATS MARCH LIKE SOLDIERS

Rodents Have Little Difficulty in Finding Supplies of Food, and Adapt Themselves to Conditions.

The ready adaptability of rats to their surroundings is one of the qualities which has enabled them to conquer the world, E. W. Nelson writes in the National Geographic Magazine. On the approach of warm weather in summer, large numbers of them leave buildings and resort to fields on farms or to the outskirts of the towns, where the growing vegetation, particularly cultivated plants, affords them an abundant supply until the approach of winter. At the beginning of cold weather they return again to the shelter of buildings, where they find the harvested crops ready for their consumption.

When the food supply suddenly decreases, following a period of plenty during which the rats have greatly increased in numbers, a migratory impulse appears to affect the entire rat population over large areas and a general migration takes place. At such times the rats are extraordinarily bold, swimming rivers without hesitation, and surmounting all other natural obstacles. The first invasion of Europe, when rats swam the Volga, was an instance of this kind. Experiments by the United States public health service have shown that when released in the water of a harbor rats may swim ashore for a distance of 1,500 yards.

## One Family "Does Its Bit"

It is not very often that these members of one family take the town by storm simultaneously, but this, says the Christian Science Monitor, is the record of the Geddeses—push-and-go Geddeses, they have been termed. Sir Eric Geddes has not long become first lord of the British admiralty; he has done a great many things and astonished a vast number of people since the war began; his brother, Dr. Campbell Geddes, is now the head of national recruiting on a civilian basis; to be intrusted with the writing of a fresh chapter in the history of recruiting at this stage of the proceedings is in itself the highest testimony to high qualities. The third Geddes to win prominence is the sister of these two brothers, Mrs. Chalmers Watson, who, after performing valuable services in France, has now become commander in chief of the new Women's Auxiliary Army corps, whose numbers will probably quite shortly run into six figures.

## Italy's Aerial Tramways

Before the war the aerial tramway was utilized in various parts of the world for transporting materials across chasms and up mountain sides, but it remained for the Italians to adapt it to their necessity of negotiating the sheer heights in Alpine warfare, according to the National Geographic Magazine. A young engineer of Milan is credited with having first suggested its present use, but it seems to have exceeded in usefulness his wildest dreams. Few facts have been given out concerning the extent of the system, but when this war is over a thrilling tale of engineering feats in its construction will remain to be told.

## Cruel Words

"But can't you give me any encouragement at all?" asked the rejected suitor.

"I'm afraid not," replied the heartless beauty. "However, I don't mind telling you that I have refused one or two men who pleased me even less than you do. If you can get any comfort out of that, you are welcome to it."

## A Waiting Attitude

"Have you learned any of the new dances yet?"

"No," replied the man who takes himself seriously. "I've been thinking of trying the Chinese tiddle, but I'm waiting to hear how the political situation in China crystallizes. I don't believe in encouraging a country as long as it shows monarchistic tendencies."

## Milady's Boudoir

### Overeating Perils.

To eat too heartily is to ruin the digestion, not perhaps in youth, but as the years pass and every organ grows a little less able to do its appointed duty. Perhaps this may be called the one special fault of women generally. They eat too heartily and take too little exercise. There will always exist the difference when it comes to proper exercise between the busy housewife who is on her feet most of the time and she who has almost nothing to do in that way but is compelled to walk abroad for the proper amount.

There is the danger of straining the nerves and then the disaster of the broken or varicose veins, always the result of too severe a strain on the muscles of the calf and thigh. To go for extreme long walks when a number of hours have been spent going about the house, is about as foolish a thing as a woman, who wishes to preserve her beauty, can be guilty of. While this may seem not to be a needed bit of advice, as I am telling what should be the food to make a woman healthy and, therefore, beautiful, it is in reality a very good point, because the woman who overtaxes her strength by too violent exercise is very apt to overload her stomach and be made ill thereby.

If a woman must rise very early and prepare breakfast, she should take a little coffee or something hot, as soon as possible. Then she should eat leisurely, no matter how many or how urgent her duties.

If she eats a fairly hearty breakfast, the middle meal should be light, as it is then the extra pounds of flesh are likely to accumulate. If she takes a hearty luncheon the dinner should be light. The gist being that three hearty meals a day are only for the woman who does a hard day's work with her hands.

# CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When Cross, Feverish and Sick Give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste. Liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. "Listen, Mother! See it tongue is coated, then give a tea-spoonful of 'California Syrup of Figs,' and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again."

Millions of mothers give "California Syrup of Figs," because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask our druggists for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advertisement.

# SLEEPLESSNESS CORRECTED BY INTERNAL BATHS

Mr. J. B. Barrows writes Dr. Chas. A. Tyrrell of New York as follows: "I am still using the 'J. B. L. Cascade' once a week. It is not a hard effort for keeping me in fine condition. It acts as a sedative for tired nerves and has been a great help for sleeplessness. I have frequently arisen from bed and used it in the middle of the night with satisfactory results."

The reason for this remarkable result is because the functions cannot work properly when there is accumulation or waste in the lower intestine.

The "J. B. L. Cascade," by the simple process of properly applying warm water, eliminates all this waste and causes the functions to work smoothly and properly.

Over half a million intelligent Americans are now using the Cascade with similar results.

It is the invention of Chas. A. Tyrrell, M. D. of New York, a noted specialist on internal bathing.

It will be shown and explained to you by Hudson Ave. Pharmacy, Williams Bros., 322 Hudson Avenue, Cor. Oak St., Newark, Ohio, who will be glad to give you an interesting booklet, by Dr. Tyrrell, called "What Man of Today is Free upon Request." This booklet is free upon request. # FAME OF PANACEA SOON IS WIDESPREAD; BENEFITS WORLD

The fame of any article that is a panacea to the suffering spreads rapidly. It goes from tongue to tongue, from neighborhood to neighborhood, from town to town and from city to city.

Soon its use becomes universal and the suffering of humanity, where ever it exists, is alleviated.

This is especially true of NER-VEE, the king of nerve medicines, that, beginning tomorrow will be introduced to the people of Newark, at the Crayon Pharmacy, No. 3 South Park Place, on the square.

Ner-Vee is unlike most other nerve medicines, in as much as it contains no opiates, bromides, narcotics, coal tar products or other habit forming drugs and is as harmless as a breath of fresh air.

Ner-Vee builds health through the stomach, blood and nerves. Strong nerves contribute generously to the forgetfulness of sickness. Ner-Vee arouses to effective action the elements of nerve mastery; that subdue the consciousness of defective health. Ner-Vee overcomes the worry of ill health. It is the choicest food for feeble, fretted nerves. Ner-Vee, the remarkable new

combatant of disease, tonic, opettizer and invigorator, goes straight to the seat of stomach, liver and kidney trouble, banishes catarrhal disturbances, rheumatism and nervousness, converting sick, delicate, run down, and tired out people into hungry, healthy and happy men and women, bringing color to faded cheeks and lustre to the eyes, and in this connection, Mrs. Geo. R. York, living at 414 Indianola ave., Youngstown, Ohio, says:

"Stomach trouble of long standing, brought on a general weakening of the body and wasting away. I grew so bad that I was alarmed. The food I ate did not give me any strength and I grew restless at night and the sleep I did get did not do me any good. For I would get up more tired in the morning than when I went to bed. Nothing I took did me any good until I tried a bottle of Ner-Vee."

"The benefit I got came almost instantly, for I began to improve from the start. I can now eat and sleep good and my nervous trouble has disappeared. I strongly recommend Ner-Vee, for it is just what they say it is, 'The King of Nerve Medicines.'"
